Who is Ankit Fadia?

Ankit Fadia, 21 years old, is an independent computer security and digital intelligence consultant with definitive experience in the field of Internet security based out of the *Silicon Valley in California, USA*. He has authored 11 internationally best-selling books on numerous topics related to Computer Security that have been widely appreciated by both professionals and industry leaders the world over. His books have sold a record 2 million copies across the

globe, have been translated into Japanese, Korean, Portuguese and Polish and are also being used as reference textbooks in some of the most prestigious academic institutions in Asia and North America. Fadia is also a widely recognized computer security guru and Cyber terrorism expert.

Fadia is however, better known for his significant work in the field of digital intelligence, security consultancy and training. In November 2001, Fadia was consulted by a classified intelligence agency for breaking an encrypted message sent by one of Osama Bin Laden's men. Since then Fadia has been involved in numerous classified projects pertaining to International Security and Computer Networks. He handles the Asia Operations of the classified intelligence agency.

Widely traveled, Fadia provides customized cyber security training and consulting solutions to clients all across Asia, Australia, North America and the Middle East including *Google, Citibank, Shell, Volvo, Thai Airways, UOB Bank, PT Cisco Systems, Bank of Thailand, Bangkok Public Bank, Amari Hotels, BlueScope Steel, Jumeirah International, Wipro, Singapore Health Promotion Board, Infosys, Satyam, Schering Ltd* and many other organizations in the government, police and corporate sectors. He has also conducted more than a 1000 different training sessions across 25 countries on various topics related to cyber security to an audience comprising of CEOs, CIOs, top level management, entrepreneurs, technical specialists, defense personnel and students.

With a strong belief in the integration of security and education, Fadia closely works with the School of Information Systems at Singapore Management University and San Jose State University and advises them on the design and structure of the course material of their computer security courses. He also offers a widely respected certification course on computer security titled *Ankit Fadia Certified Ethical Hacker*.

Widely celebrated in international media publications, Fadia is also regularly invited by *BBC Radio World News, London* to share the latest updates on virus outbreaks, loopholes and cyber crime trends. For his outstanding contributions in the field of computer security globally, Fadia has been honored with numerous awards namely: *Indo-American Society Young Achiever Award 2005, IT Leader Award 2005, Person of The Year 2002, Limca Book of Records, Hall of Fame Award, Outstanding Young Achiever's Award, Silicon India Person of the Week,*

Embassy State Award, Best Speaker Award (4 occasions), Student of the Year 2002-03 and many more.

Born in India, Fadia is currently pursuing his Bachelors in Computer Science with specialization in Information Security at Stanford University, USA. He also used to conduct research and work on special projects at the global headquarters of Symantec Corporation at Cupertino, California, USA. Recently Fadia started his own computer security consulting and training company in Kuala Lumpur, Malaysia with operations all across the Asia Pacific region.
